Re: Local Number Portability

Dear Stan Brown:

The FCC has recently reiterated the pre-existing deadlines for local number porting for wireless and wireline carriers operating outside the Top 100 MSAs, effective May 24, 2004. Verizon Wireless Celco Partnership d/b/a Verizon Wireless would like to begin to complete a Service Level Agreement (SLA) to ensure a smooth transition to number portability by establishing procedures to govern the exchange of information during the porting process. Specifically, an SLA would serve several purposes: memorialize the intercarrier communications processes that the two carriers intend to follow, capture appropriate porting center and trouble contacts, and contain the parties' agreement to successfully facilitate porting customers. If you have not already received a copy of our SLA, you can obtain one by contacting Sharon Canas at 925-279-6122 or email Sharon.Canas@VerizonWireless.com.

If negotiating an SLA is not possible in the next few weeks before the LNP deadline, Verizon Wireless's immediate concern is in obtaining, at minimum, a Trading Partner Profile (TPP). The TPP would provide basic factual information necessary to accomplish portability and would include those entities covered by the profile and any back-office or porting center contacts. Verizon Wireless plans to integrate this information into its information systems and also provide it to personnel staffing our porting center. Whether or not an SLA is ultimately executed, sharing this type of factual information is necessary to facilitate porting as well as fallout resolution. In this regard, we have enclosed a copy of the TPP with appropriate contact information.

Please include a response to this request along with a point of contact for provision of TPP information and/or SLA discussions in a letter or email addressed to the undersigned. Thank you for your immediate attention and cooperation.

Wireline to Wireless, or Wireless to Wireline Simple Port	OSP to make reasonable efforts to respond to NSP port request within twenty four (24) hours. Both parties will make reasonable efforts to complete a port request within three (3) days, or by the NSP's requested date and time, whichever is later.
Wireless to Wireless Complex Port	The Parties will coordinate in good faith the processing of complex port requests and use commercially reasonable efforts to process port requests in a timely fashion.
Wireline to Wireless, or Wireless to Wireline Complex Port	The Parties will coordinate in good faith the processing of complex port requests and use commercially reasonable efforts to process port requests in a timely fashion.

Appendix B – WICIS Fields

WICIS 2.0.1, Section 3.3.1

The information on the Wireless Port Request record is populated by the NSP from either their own internal systems or through data entered directly into NICP. In the table below, the values in the "Length" column are, "an" for alphanumeric, "alpha" for alphabetic, and "num" for numeric. The values in the Type column are "M" for mandatory, "C" for conditional and "O" for optional. When "NSP" is specified as the Data Source, it is assumed that either the NSP's systems will generate the information fed to the NICP or the information will be manually entered into the NICP. When the Data Source is "SYSTEM", it is assumed that the NICP will generate the required information. For complete descriptions of the field attributes, please refer to the Data Dictionary.
